

**LET'S
TALK
about
PETS**

**in your schools and
your community**

Helping professionals support pet owners and their pets

"All sessions were very interesting, and the children (as well as the teachers!) learnt a lot!"

"Super content for age group, pace was really good for my class"

Let's talk about pets!

At Wood Green, the Animals Charity, we want to start a conversation with professionals, pet owners and children. We want to get people talking about what pets need – and together we can do this in both our homes and our local communities.

Supporting your clients and their pets

Education is at the heart of our work. We empower pet owners to make sure their pets are happy and healthy, through practical support, advice and guidance, and building skills.

If you work with pet owners, we can work with you and find out what you need to help them. We can give your team information, guidance and training so they can support owners and their pets even more effectively. And we'll give you the resources to help you make sure the pets in your community are happy and healthy, and in a loving home for life.

How we can help local pet owners

If you work with someone who needs help looking after their pet, we can support them directly. Here are just some of the things we can help with:

- ♥ advice on basic pet health, training and behaviour
- ♥ support with feeding, leads, collars, bedding and litter trays
- ♥ microchipping, neutering and flea treatments.

We do home visits or we can bring our van!

We may be able to visit owners at home to help with in-depth pet issues or if they have more than one pet.

Or we can bring our community engagement van to you. It's a safe, private space for owners to talk through their pet worries. We can give owners and pets tailored Pet health and wellbeing sessions – covering everything from claw clipping and microchipping to advice on behaviour and training.

Training your teams

We can also offer bespoke training to organisations that work with families with pets. We can cover how to:

- ♥ spot when a pet may be at risk
- ♥ stay safe when visiting properties with pets
- ♥ promote safe relationships between children and pets.

Supporting your community

Running a local community event?

Whatever event you're planning, we can bring our community engagement van and set up a fun, interactive and informative stand about pet ownership for your guests.

Are you a community ambassador?

Whether you're a youth worker or a community centre manager, we can run all sorts of pet workshops to suit your local community and the people you support.

Our free workshops for schools

We'd love to get your whole school talking about pets! Our free, fun, interactive and educational workshops really get children talking. They'll help your school meet some SMSC quality marks and British Values targets too.

If your school is in Cambridgeshire

Why not let us take over your whiteboard and run our live digital workshops through Microsoft Teams?

Choose your sessions from the list overleaf and email us at community@woodgreen.org.uk to book. We look forward to working with you soon!

If your school is outside Cambridgeshire

Wherever you are, you can download our pre-recorded workshops for your classes via Google Classroom.

See which workshops you're interested in from the list on the next page and use the Google Classroom codes to take part.

Make Henry Hamster a happy home! – Reception and KS1

Google Classroom code: [4o7kyuj](#)

Henry Hamster needs a new home. In pairs, pupils choose Henry a cage, bedding, toys and friends – and then see if he's happy!

Woody's Dog Safety Workshop – Reception, KS1 and KS2

Rec / KS1 Google Classroom code: [rvla2fu](#)

KS2 Google Classroom code: [r6j7uhi](#)

In this fun and engaging workshop, pupils find out what dogs like and don't like, how to stay safe around them and when they might need time to themselves. All with the help of Wood Green staff and Woody, our animated dog.

British Values and the five welfare needs – KS2

Featuring cats and dogs Google Classroom code: [4zlpdrd](#)

Featuring small animals Google Classroom code: [lvtksr3](#)

Pupils explore the five welfare needs of pets and how they relate to responsible pet ownership. With fun, interactive group activities and discussions, these workshops empower pupils to make a difference to pets in their local communities.

Wood Green's Pet Care Club – KS2

Google Classroom code: [hp62gvw](#)

Explore the five welfare needs in more detail with this easy-to-teach, six-week pet club – where pupils can develop their role as pet ambassadors in their communities. Perfect for a lunch-time club for a half term. You can only download the resources for the pet club, it's not available in another format.
