

Our fun and interactive parent-led sessions are perfect for families who love animals.

Just download the activity, print the plan and have lots of fun meeting Henry and Wiggles.
You might be surprised how much you all discover!

1

Pet rescue centre

Print out our origami sheets linked here, woodgreen.org.uk/educational-resources and make your own pet rescue centre complete with cats, dogs, chickens and rabbits. Work out which animals need a friend to feel happy in their Wood Green pen.

2

Design a new toy for your pet

You have been selected by the world's leading pet toy manufacturer to make the best pet toy ever. What would you design? Will it have magic features? How will it meet the needs of your pet? The only limit to its fun is your imagination! You could draw it, make it out of recycled items or write about it.

3

Build a lego house for an alien pet

An alien pet has landed and needs a home. Can you build it? Will it be tall? Have secret entrances? A sleeping area? Room for visitors? Consider everything a pet needs from food and water through to toys, company and vet care. We'd love to see pictures of your finished pet pads.

4

Bin the bowl pet challenge

Up for a challenge? Can you work out a fun way to hide/wrap/scrunch your pet's breakfast using newspaper or cardboard boxes and tubes? Make it easy for them if it's their first time having to sniff out their food and watch them have fun finding it! It's a great challenge which you can repeat every mealtime, making it harder to find each time. **Now you can bin their bowl!**

5

Wood Green family pet challenge

Who in your family can write down EVERY type of animal we rehome at Wood Green? This is a three minute timed challenge. You might be surprised at the variety of animals we find homes for. Take a peek at our rehoming pages to work out the answer.

6

Sponsor a Wood Green pet

Your family could become a Wood Green sponsor and help provide warm shelter, food and medical care for a pet in need until we find their forever home. In return you'll get exciting updates on the pet you're helping as well as lots of photos and videos!
